Special Education Law: 8-Part Training Series is a set of training CDs, transcripts, and handouts that provides both an overview of special education law and more in-depth training about different aspects of IDEA.

The series is designed for regular education teachers who need a deeper understanding of special education. These teachers have special needs students in their classes though, and it's important that they understand IDEA, so they can meet their students' needs, and the school district can maintain the highest standards of compliance with the law.

Purchasing the series will

- Educate teachers about special education law
- Improve IDEA compliance
- Protect the school and the district
- Improve service to special needs students and their families

Each seminar lasts about an hour and has a blend of video and presentation slides. No special computer software is needed to view the CD

The eight topics on in the *Special Education Law: 8-Part Training Series* are:

1. IDEA Overview
2. Evaluations and Eligibility
3. Procedural Rights and IEPs
4. Discipline Provisions
5. Transitions
6. Private Schools
7. Due Process and Administrative Complaints
8. BONUS: Section 504

Teachers can view the training CDs in groups or as individuals, and the training can be scheduled to fit into the school day. When staff members have completed the training, the series can become a part of the staff-development library as a resource and to train new teachers.
